

About Us

This is the deal. Maxxim Group is not your traditional real estate or lending company. For one thing, most companies are either real estate or mortgage lending companies, not both. But at Maxxim Group, we do it all. Why? The biggest reason is because it allows us to provide just one place people can turn to for every type of real estate need they have — buying, selling, refinancing, residential, commercial, new construction, land, property management and more. We have the experience, knowledge and a long track record of success in helping people achieve their real estate plans and dreams. We know what we’re doing and we’re really good at it. Maxxim Group also has somewhat of a non-traditional approach to doing business: Our Client Philosophy We measure our success by the satisfaction of our clients. Really, is there any other way to measure success? Because if we do well for our clients, they will return to us for their real estate and lending needs down the road. On top of that, they will refer their family, friends and acquaintances to us so we can help them out the same way. A satisfied client translates into success for Maxxim Group!

At Maxxim Group, we have experts in every facet of the industry, which allows us to work together with our clients to find the best solution for their needs. It may not necessarily be what the client thinks they should do at the time, but we guarantee it will be the best thing for them to do. To us, watching out for our clients’ best interests beats “the customer is always right” any time.
